

YOU ARE INVITED

Kedrion
Biopharma

KEDRAB DINNER PROGRAM

Being Prepared for All Rabies Exposures Understanding the threat of rabies and why proper PEP and HRIG volume matters

Please join us for a live discussion where we will take an in-depth look at rabies and associated health risks, animal exposure types and wound severities, post-exposure prophylaxis (PEP) guidelines, and human rabies immune globulin (HRIG) administration.

We will also discuss pediatric data and evidence and why it's so important to have enough volume to treat all rabies exposures that come through your door.

OUR SPEAKER

Karl H Kappeler
PharmD, FASHP

Current

- Director, Children's Hospital Services, Visante, LLC
- Assistant Professor – Practice, The Ohio State University College of Pharmacy, Columbus, Ohio

Previous

- Director, Medical Affairs, Azurity Pharmaceuticals
- Chief Pharmacy Officer, Nationwide Children's Hospital
- Senior Consultant, Children's Hospital Pharmacy Services, The American Society of Health-System Pharmacists

Mr Kappeler is compensated by Kedrion Biopharma for his involvement in this program.
