The liens and assignments authorized by statute for an entity that operates a health care institution or provides health care services are enforceable by a cause of action and are subject to a list of specified conditions. The first \$20,000 of any third-party judgment, settlement or award is exempt from any lien or assignment. If the services provided are covered by the injured person's health insurance or similar medical benefit plan with which the health care provider has a contract, the contract must expressly allow the claimant to assert a lien or assignment or the lien or assignment is invalid and cannot be enforced by a cause of action, except that a claimant may enforce a lien or assignment for the amount of a patient's responsibility for outstanding copayments and deductibles. Health care providers are required to compromise any lien or assignment granted to provide a settlement of the claim that is fair and equitable. Factors that must be considered in determining the extent of the compromise are listed. Applies to liens that are filed for services that are provided beginning January 1, 2023.
