#### H2030: STATE HOSPITAL; PROCUREMENT; OVERTIME

The Department of Health Services is exempt from the Procurement Code for contracts to provide medically necessary physical health care to individuals under the care of the Arizona State Hospital. A workday for state employees who are employed at the Arizona State Hospital may include a shift that spans two calendar days, and the workday is defined as the day the shift ends. The scheduled shift start and end times of these workdays cannot be adjusted to avoid the payment of overtime. AS SIGNED BY GOVERNOR

## **H2429: PHYSICIANS; WELLNESS PROGRAMS; CONFIDENTIALITY**

Any statewide association that is exempt from taxation under federal code 501(c)(3) or 501(c)(6) and that primarily represents health professionals licensed by the Arizona Medical Board, Board of Osteopathic Examiners in Medicine and Surgery, or Board of Nursing is authorized to establish a "health professional wellness program" (defined as a program to address an issue related to career fatigue or wellness). A record of a health professional's participation in a health professional wellness program is confidential and not subject to discovery, subpoena, or a reporting requirement unless the disclosure is required to meet a licensee's obligation to report criminal or unprofessional conduct, or the health professional voluntarily provides for written release of the information. #### H2490: PHARMACISTS; PROVIDERS; COLLABORATIVE PRACTICE AGREEMENTS

Licensed pharmacists are authorized to enter into a "collaborative practice agreement" (defined) with a "provider" (defined) to initiate, monitor, and modify drug therapy or provide disease management assistance. Collaborative practice agreements are required to outline the duties that the provider is delegating to the pharmacist to perform, and specify the medical conditions to be managed by the pharmacist. A provider who enters into a collaborative practice agreement is required to have a previously established provider-patient relationship with a patient in order for that patient to be eligible to be included under the collaborative practice agreement. Repeals statute regulating a pharmacist initiating, monitoring and modifying drug therapy and use. AS SIGNED BY GOVERNOR

## **H2507: RELIGIOUS SERVICES; ESSENTIAL SERVICES**

During a state of emergency, religious services are declared essential services and are deemed necessary and vital to the health and welfare of the public. State government is required to allow a religious organization to continue to operate and to engage in religious services during a state of emergency to the same or greater extent than other organizations or businesses that provide essential services and that are necessary and vital to the health and welfare of the public are allowed to operate. Does not prohibit state government from

For  
Vote  
Analysis:  
☐ Support  
☐ Oppose  
☐ Neutral

requiring religious organizations to comply with neutral health, safety or occupancy requirements that are issued by state government or the federal government and that apply to all organizations and businesses that provide essential services. State government is prohibited from enforcing any health, safety or occupancy requirement that imposes a substantial burden on a religious service unless state government demonstrates that applying the burden to the religious service in that particular instance is essential to further a compelling governmental interest and is the least restrictive means of furthering that compelling governmental interest. Establishes claims and defenses against state action under these provisions, and provides remedies for violations. This legislation is required to be construed in favor of a broad protection of the free exercise of religion. This legislation does not apply to a case based on criminal conduct or a tort action brought by a victim of criminal conduct against a religious organization or an employee or volunteer of a religious organization. Contains legislative findings. AS SIGNED BY GOVERNOR

## H2609: AMBULANCE SERVICES; SERVICE AREAS

Various changes to statutes relating to ambulance service. The Department of Health Services (DHS) is required to review ambulance response times and update the response times based on population density and geographic and medical considerations, and the financial impact on rates and charges, every six years. The calculation of response times must begin when the public safety answering point contacts an ambulance service for dispatch and conclude when the ambulance service arrives at the dispatched location. Beginning January 1, 2024, ambulance services are required to install and maintain an electronic global positioning system monitoring device in each vehicle to record on-scene arrival times for response time measurement. DHS is required, to provide a waiver to an ambulance service that can reasonably demonstrate that it is unable to meet this requirement. When dispatch or global positioning system connectivity is not available, an ambulance service is required to manually document the on-scene arrival times for response time measurement. DHS is required to make response time data publicly available. Within 180 days after receiving an application for an ambulance service certificate of necessity, DHS is required to determine whether necessity for the ambulance service exists and the ambulance service meets the requirements for a certificate of necessity. On receipt of an initial or amended application for a certificate of necessity, DHS is required to post a notice

For  
Vote  
Analysis:  
☒ Support  
☐ Oppose  
☐ Neutral

of the application on its website. Within 30 days after the notice is posted, any interested party is allowed to provide information to DHS for consideration. Establishes a list of entities that are considered to be an interested party as a matter of law. DHS is required to notify all interested parties, including municipalities, fire districts, and existing certificate of necessity holders within the service area, of any applications for an initial or amended certificate of necessity within 15 days after an application is filed, within 15 days after the application is complete, and within 15 days after a decision on the application by DHS. Any certificate of necessity holder whose ambulance service area is within the affected service area of a new ambulance service is allowed to appeal a DHS determination within 30 days after the decision. If an appeal is made, DHS must hold a public hearing and notify every interested party of the hearing. DHS must require a public hearing on any proposed action relating to an adjustment of general public rates, charges, or certificate of necessity transfers, with some exceptions. This legislation applies to initial and amended certificates of necessity filed with DHS beginning January 1, 2024. Effective January 1, 2024. AS PASSED SENATE

**H2659: ORGAN TRANSPLANTS; DISABILITIES; DISCRIMINATION; PROHIBITION**

Health care providers are prohibited from determining that an individual is ineligible to receive an organ transplant, refusing to place the individual on an organ transplant waiting list, or denying an individual medical or other services related to an organ transplant based solely on the individual's disability. Applies to each stage of the organ transplant process. If an individual believes that a health care provider or facility has violated this prohibition, the affected individual may commence a civil action for injunctive and other equitable relief for the purpose of enforcing compliance. **H2691: HEALTH CARE WORKFORCE; GRANT PROGRAMS**

Appropriates \$15 million from the general fund in each of FY2022-23 through FY2026-27 to the Department of Health Services (DHS) for the Arizona Nurse Education Investment Program, which is established to increase the capacity of nursing education programs in Arizona. DHS is required to allocate monies to the Arizona Board of Regents and community college districts based on the number of nursing students graduating in FY2021-22. ABOR and CCDs are required to use the monies to pay for costs necessary to increase the number of qualified nursing education faculty and for directly related capital expenses. Appropriates \$27 million from the general fund in each of FY2022-23 through FY2026-27 to DHS for the Nurse Clinical Rotation and Licensed Nurse Training Program, which is established to expand the capacity of preceptor training programs at health care institutions for nursing students and licensed nurses. DHS is required to develop a grant program to distribute the monies to licensed health care institutions to expand or create clinical training placements for nursing students and licensed nurses. Appropriates \$500,000 from the general fund in each of FY2022-23 through FY2026-27 to DHS for the Preceptor Grant Program, which is established to expand the capacity of preceptor training programs for graduate students pursuing degrees as physicians or advanced practice registered nurses. DHS is required to allocate the monies to the three largest statewide nonprofit organizations that represent allopathic physicians, osteopathic physicians, and advance practice registered nurses. Specified licensed medical professionals who serve as volunteer preceptors are authorized to apply for grants from the nonprofit organizations. Appropriates \$5 million from the general fund in each of FY2022-23 through FY2024-25 to the Arizona Health Care Cost Containment System for deposit in the Demonstration Project Program Fund to expand the capacity of the Maricopa County Community College District and the Navajo County Community College District to train students as behavioral health workers.

### **S1077: AHCCCS; CHIROPRACTIC CARE; REPORT**

Subject to approval by the federal Centers for Medicare and Medicaid Services, the list of medically necessary health and medical services that Arizona Health Care Cost Containment System (AHCCCS) contractors are required to provide is expanded to include chiropractic services that are performed by a licensed chiropractor and that are ordered by a primary care physician or primary care practitioner pursuant to rules adopted by the AHCCCS Administration. The primary care physician or practitioner is permitted to initially order up to 20 visits annually and to authorize additional medically necessary chiropractic services in that same year. Monies from the Hospital Assessment Fund are prohibited from being used to provide chiropractic services. The AHCCCS Administration is required to prescribe qualifying conditions for chiropractic services and require contractors to report on the use of chiropractic services. The AHCCCS Administration is required to submit a report of chiropractic care cost savings determinations to the Governor and the Legislature by January 21, 2027.

### **S1080: ACUPUNCTURE; SCOPE OF PRACTICE; ASSISTANTS**

For the purpose of statute governing the Acupuncture Board of Examiners, the definition of "acupuncture" is expanded to include prescribing adjunctive therapies, using decision-support tools, and ordering diagnostic imaging and clinical laboratory procedures to determine the nature of care and/or to form a basis for referral to other licensed health care professionals. "Acupuncture assistants" (defined) are authorized to assist a licensed

For  
Vote

acupuncturist pursuant to rules adopted by the Board, and working as an acupuncture assistant without supervision of a licensed acupuncturist is prohibited. Acupuncture assistants are required to register with the Acupuncture Board of Examiners. The Board is authorized to suspend or revoke the registration of an acupuncture assistant who violates statutes related to the practice of acupuncture. Beginning January 1, 2023, an applicant for a license to practice acupuncture or for certification as an acupuncture detoxification specialist is required to possess a valid fingerprint clearance card, instead of being required to submit a full set of fingerprints to the Board. By January 1, 2024, the Board is required to adopt rules for the purpose of this legislation. Until the Board adopts rules, a licensed acupuncturist may supervise an unlicensed person who has completed a training program for acupuncture assistants that includes specified training. ## **S1084: PUBLIC RETIREMENT SYSTEMS; ADMINISTRATION**

Numerous changes to statutes relating to public retirement systems. Employers required to participate in the Public Safety Cancer Insurance Policy Program are required to pay the premiums for the cost of the program and include the premium amount as wages of the firefighters and peace officers participating in the program subject to federal and state income and employment taxes. For the purpose of the Elected Officials' Retirement Plan (EORP), the Corrections Officer Retirement Plan (CORP), and the Public Safety Personnel Retirement System (PSPRS), the definition of "eligible retirement plan" is expanded to include, for distributions made after December 18, 2015, a simple retirement account that satisfies the requirements of section 408(p) of the federal Internal Revenue Code. For PSPRS, the definition of "member" is expanded to include game rangers who are certified peace officers and who are employed by an Indian Reservation. For EORP and CORP, the definition is also expanded to include, effective January 1, 2008, a ROTH individual retirement account that satisfies the requirements of section 408A of the federal Internal Revenue Code. Also repeals and reestablishes changes to reporting deadlines that were originally signed into law as Laws 2021, chapter 405 (part of the FY2021-22 budget), but that were deemed unconstitutional by the Arizona Supreme Court in Arizona School Boards Association et al v. State of Arizona. AS SIGNED BY GOVERNOR

### **S1138: GENDER TRANSITION; MINORS; PROHIBITION (GENDER TRANSITION; PROHIBITIONS; PUBLIC MONIES)**

Physicians are prohibited from providing "irreversible gender reassignment surgery" (defined) to any individual who is under 18 years of age. Physicians are authorized to provide services to an individual born with a medically verifiable disorder of sex development, to treat any injury or disease caused by or exacerbated by the performance of gender transition procedures, and to provide any procedure undertaken because the individual suffers from a physical disorder, injury, or illness that would place the individual in imminent danger of death or impairment of major bodily function unless surgery is performed. Effective April 1, 2023. AS SIGNED BY GOVERNOR. In his signing statement, the Governor stated that the irreversible nature of these procedures underscores why a decision should be made as an adult.

### **S1162: OPIOID PRESCRIPTIONS; INTRACTABLE PAIN; EXCEPTIONS**

The limit of 90 morphine milligram equivalents per day on a prescription for a schedule II controlled substance that is an opioid does not apply to a patient who is receiving opioid treatment for perioperative care following an inpatient surgical procedure or to a patient who has "chronic intractable pain" (defined) once the patient has an "established health professional-patient relationship" (defined) and the patient has tried doses of less than 90 morphine milligram equivalents that have been ineffective at addressing the patient's pain.

#### **S1163: INDIVIDUALIZED INVESTIGATIONAL TREATMENT; AVAILABILITY; PROHIBITIONS**

A manufacturer operating within an "eligible facility" (defined as a healthcare institution that operates under federalwide assurance regulations) is authorized to make available to an "eligible patient" (defined as a patient with a life-threatening or severely debilitating illness that meets other specified conditions) an "individualized investigational treatment" (defined as a drug, biological product, or device that is produced exclusively for use by the patient based on his/her genetic profile). A health plan or other third-party payor is allowed but not required to cover the cost of an individualized investigational treatment. If a patient dies while being treated with an individualized investigational treatment, the patient's heirs are not liable for any outstanding debt related to the treatment. AS SIGNED BY GOVERNOR

### **S1164: ABORTION; GESTATIONAL AGE; LIMIT**

Except in a "medical emergency" (defined), a physician is prohibited from intentionally or knowingly performing, inducing, or attempting to perform or induce an abortion if the "probable gestational age" (defined) of the unborn human being has been determined to be greater than 15 weeks. Violations are a class 6 (lowest) felony and an act of unprofessional conduct, and the physician's license must be suspended or revoked. A pregnant woman on whom an abortion is performed, induced, or attempted cannot be prosecuted for conspiracy to commit a violation. If a physician performs or induces an abortion after 15 weeks gestation, the physician is required to file a report with the Department of Health Services with specified information. Failing to file the report is subject to a civil penalty of \$10,000. Knowingly or intentionally delivering a report with a false statement is subject to a civil penalty of \$10,000. The Attorney General is authorized to bring an action to enforce these requirements. Contains a legislative intent section. The Legislature is authorized to appoint one or more of its members to intervene as a matter of right in any case in which the constitutionality or enforceability of this legislation is challenged. Severability clause. AS SIGNED BY GOVERNOR. In his signing statement, the Governor stated his belief that it is the state's responsibility to protect life, including preborn life.

## **S1210: MENTALLY ILL; TRANSPORTATION; EVALUATION; TREATMENT**

When a court, a person, an evaluation agency, or a mental health treatment agency is allowed to authorize, request, or order the apprehension and transportation of a proposed patient by a peace officer to an evaluation agency or mental health treatment agency, the court, person, or agency is allowed to authorize the apprehension and transportation by an "authorized transporter" (defined as an ambulance company or transportation provider contracted with a municipality or county to provide safe behavioral health transportation) if available if there are reasonable grounds to believe that the patient or proposed patient may be safety apprehended and transported without the assistance of a peace officer. Establishes limits on civil liability for the apprehension or transportation, which do not apply to a person who acts with gross negligence. Municipalities that have a licensed health care institution within the jurisdictional boundaries and that operate an ambulance service are authorized to apply to amend the certificate of necessity to provide "interfacility transports" (defined) in lieu of transports by a peace officer. Requires a copy of any court order for mental health evaluation or involuntary detention to be personally served on the proposed patient. Establishes a 15-member Study Committee on Alternative Behavioral Health Transportation to research and make recommendations for the implementation of and the use of alternative behavioral health transportation providers for individuals involved in mental health treatment or evaluation processes, as an alternative to transportation by peace officers. The Committee is required to submit a report of its findings and recommendations to the Governor and the Legislature by December 31, 2023, and self-repeals July 1, 2024. AS SIGNED BY GOVERNOR

### **S1230: DEVELOPMENTAL DISABILITIES; PROVIDER INCREASES**

Appropriates the following amounts in FY2022-23 to the Department of Economic Security (DES) to provide reimbursement rate increases for services to the following populations: \$28.3 million from the general fund and \$65 million in Medicaid expenditure authority for home and community-based services to individuals with intellectual and developmental disabilities, and \$1.7 million from the general fund for individuals in early intervention programs. DES is required to provide reimbursement rate increases for all home and community-based services provided to individuals with intellectual and developmental disabilities and for early intervention services in FY2022-23 so that each service receives an increase, except for nursing services and therapy services. At least 80 percent of the increase for home and community-based services to individuals with intellectual and developmental disabilities must be used for wage increases for direct care workers and supervisory staff directly overseeing direct care workers. By October 1, 2022, DES is required to report to the Joint Legislative Budget Committee describing its plans to implement provider rate increases. Contains a legislative intent section. ## **S1272: AHCCCS; POSTPARTUM CARE; ELIGIBILITY; APPROPRIATIONS**

A woman who is less than one year postpartum with a family income that does not exceed 150 percent of the federal poverty guidelines is added to the definition of "eligible person" for the Arizona Health Care Cost Containment System (AHCCCS). The definition of "primary care practitioner" for AHCCCS is expanded to include certified nurse midwives. Appropriates \$2.7 million from the general fund and \$6.2 million from Medicaid expenditure authority in FY2022-23 to the AHCCCS Administration for eligible postpartum women. Conditionally enacted on the Centers for Medicare and Medicaid Services, by July 1, 2023, authorizing AHCCCS to redetermine the eligibility of members who are less than one year postpartum.

### S1308: DHS LICENSURE; GROUP HOMES

By July 1, 2023, "behavioral-supported group homes" (defined) and group homes operated in Arizona by a service provider and under contract with the Department of Economic Security are required to be licensed by the Department of Health Services (DHS). Establishes a list of rules for group homes that DHS is required to adopt. Group homes and behavioral-supported group homes are exempt from required zoning standards for a health care institution. DHS cannot accept an accreditation report in lieu of a compliance inspection of a behavioral-supported group home, a group home, or a nursing-supported group home. Beginning July 1, 2023, DHS is required to transfer all group home licenses to the appropriate subclass of health care institution license. AS PASSED HOUSE

### **S1311: HEALTH CARE WORKERS; ASSAULT; PREVENTION.**

The list of victims of assault that cause an assault to be classified as aggravated assault if the defendant knows of their profession is expanded to include a "health care worker" (defined) while engaged in the health care worker's work duties. Aggravated assault committed on a health care worker is a class 6 (lowest) felony. By July 1, 2023, "health care employers" (defined as licensed health care institutions with more than 50 employees) are required to develop, implement and maintain a written workplace violence prevention plan that includes specified provisions. As soon as practicable after a workplace violence incident is reported to a health care employer, the employer is required to investigate the incident and to document the findings, recommendations and corrective measures taken for each investigation conducted. #### **S1567: EMPLOYERS; VACCINATIONS; RELIGIOUS EXEMPTION (VACCINATIONS; PROHIBITIONS; EVIDENCE OF IMMUNITY)**

Employers are prohibited from discriminating against an employee regarding employment, wages, or benefits based on the employee's vaccination status, and from inquiring into the veracity of an employee's religious beliefs. Employers are required to allow employees to claim a religious exemption from the COVID-19 vaccination mandate using a specified form. Employees are prohibited from creating a database of religious exemption requests. Employees of a health care institution are authorized to file a complaint with the Department of Health Services (DHS) if the health care institution did not offer the employee a religious exemption form or improperly applied or denied the employee's religious exemption and the employee's employment was terminated. DHS is required to investigate all complaints. If DHS finds the complaint valid, DHS is required to notify the health care institution and allow the employer the opportunity to correct the noncompliance. AS PASSED SENATE

### **S1568: HEALTH PROFESSIONALS; COMPLAINTS; INVESTIGATIONS**

Health profession regulatory boards must require complainants to identify themselves in the complaint and make themselves available for an evidentiary interview. Complainants may request that their identity remain confidential during the preliminary investigatory process. If the investigatory process results in a determination that a violation of law may have occurred, the respondent is entitled to the complete investigatory file, including the identity of the complainant, for purposes of providing a comprehensive response to the complaint. Additionally, health profession regulatory boards are required, instead of allowed, to establish a nondisciplinary confidential program for chemical dependency, substance misuse, or behavior health disorders, and must provide all licensees with the opportunity to participate in the program.
